

GUIDE 04

Adding team members

Add people to the Team section, choose how they are shown, set their quote, and remove them.

Add a team member

Employees → New

1. **Name** and **Job Position** (the role shown under the name).
2. **Photo**: click the square at the top right of the form and upload.
3. **Tags** decide how and where they appear:
 - **Leadership** : a large photo card with a quote.
 - **Executive Team** : a circular portrait.
 - **Homepage** : also shown on the home page (up to 8 people).
4. **HR Settings tab** → **Additional Note**: the quote shown under a leadership card.
5. Save. Employees have no Published switch; saving is enough.

Where they appear

Home page	Only people tagged Homepage , up to 8, shown as cards.
About page	Everyone. Leadership as large cards, everyone else as circles.
Order	The order people were created in Odoo. There is no sort field, so add senior people first.

Photos

- Use a clear portrait, head and shoulders, at least 600 pixels wide. The card crops from the top, so keep the face in the upper half.
- No photo? The website shows a coloured circle with the person's initials instead of a grey silhouette.
- Photos are fetched privately through the website and kept for a day, so a new photo can take up to a day to replace an old one everywhere.

Change or remove someone

- **Promote** someone: change their tag, for example from **Executive Team** to **Leadership** .
- **Take them off the home page**: remove the **Homepage** tag.
- **Remove them** from the website: **Archive** the employee (Action → Archive).

Adding an employee also creates a Contact automatically. That is normal Odoo behavior and does not affect the website.
