

GUIDE 08

Social media links

Set the Instagram, YouTube, Facebook, LinkedIn and X icons in the website footer.

Set or change a link

Website → Go to Website → Edit → click the social icons in the footer

1. Open the Odoo website editor and click **Edit**.
2. Scroll to the bottom and **click the social icons block**.
3. Paste each full address (for example `https://www.instagram.com/robonest2026`) in the right-hand panel.
4. Click **Save**.

Current links

Network	Link
Instagram	<code>https://www.instagram.com/robonest2026</code>
YouTube	<code>https://www.youtube.com/@Robonest2026</code>
Facebook	Not set: waiting for the page address
LinkedIn, X	Not set

An empty field shows no icon. This is deliberate: an icon that leads nowhere looks worse than no icon. To remove an icon, clear its field and save.

Use the page address from the browser's address bar (for example `facebook.com/your-page-name`), not a login email.
