

GUIDE 15

Changes that need a developer

Content that is built into the website rather than kept in Odoo. Each is a small edit in one file, live a few minutes after it is saved.

What	Notes
Home page headline, subheading, the four proof points	Text change
The three hero videos	Replace the video files
The three lab cards and their bullet points	Text change
Statistics (10,000+ students, 10 days, 3 labs, 100% educator-led)	Number change
Hardware showcase (Arduino, sensors) and its clips	Text or video file change
Institution Gallery photos and clips	Send the photos or clips; they are resized and added. Currently 22 photos and 7 clips.
Contact details (address, phones, email)	Text change
Nesty the robot's answers and speech bubbles	Text change
Turning the Videos page back on	One switch, once real YouTube videos are in Odoo (guide 06)
About page headline and the RoboNest Advantage cards	Text change (the long About text is in Odoo, guide 07)
Design, layout, new sections, animation	Development work

How to request a change

- Send the exact new wording, or the photo and video files, and say which page and section.
- For gallery media, send originals (not screenshots or chat-compressed copies) and point out any duplicates you know of.
- Do not send documents containing bank, ID or personal details alongside media; they are never published but should not travel with website files.
